

The Leasing Network: Saving 20+ Hours Weekly with Inspection Express

Streamlining Property Inspections for Maximum Efficiency and Time Savings

About The Leasing Network

The **Leasing Network**, founded by **Kelley Seaton** in **New South Wales**, is a property management agency with over 30 years of industry expertise. Specializing solely in property management, the team ensures top-quality service for landlords and tenants. For over five years, they have used Inspection Express to automate processes and improve efficiency in property inspections.

CHALLENGE

Before adopting Inspection Express, The Leasing Network faced significant inefficiencies in their inspection process. Everything was paper-based, leading to:

Time-Consuming Manual Work

Entry condition reports took up to **10 hours per property**.

Storage & File Management Issues

Some reports exceeded **200 pages**, making storage challenging.

Tenant Follow-Ups & Compliance Delays

Signed reports were a **manual process**

Lack of Automation & Digital Access

No automation **meant no reminders**, difficult document access and processes.

"We used to have filing cabinets filled with thick folders, and scanning reports was a nightmare. If tenants didn't return the reports, we had to chase them manually. It was exhausting."

– Kelley Seaton, Director

With these challenges, The Leasing Network needed a solution that could cut admin time, improve efficiency, and allow the team to focus on client relationships.

SOLUTION

Inspection Express

After seeing what **Inspection Express** could do, Kelley and her team **immediately saw the benefits** of an automated, **fully digital** inspection process.

-  Digital reports cut inspection time from **10 hours to minutes**, reducing admin work.
-  The team saved **20+ hours weekly** by eliminating repetitive tasks and focusing on growth.
-  Reports are **auto-sent and time-stamped**, ensuring seamless documentation and compliance.
-  Owners value **professional digital reports**, and tenants enjoy the **user-friendly system**.

*"The time savings are massive. We save at least **20 hours per week** — that's the equivalent of half a staff member's workload!"*

- Kelley Seaton, Director

RESULTS

More Time, Happier Clients, and a More Efficient Business

With **Inspection Express**, The Leasing Network has transformed its business:

-  **20+ hours saved** weekly by eliminating manual paperwork.
-  **100% digital reports** eliminate paper filing, scanning, and tenant follow-ups.
-  Increased efficiency frees the team to **grow their business** instead of handling admin.
-  More time for personalized service **strengthens client relationships**.

"The biggest benefit? Time. It has allowed us to scale our business and spend more time with clients instead of getting stuck in admin work. If you're still doing inspections manually — stop sitting on the fence and switch to Inspection Express!"

- Kelley Seaton
